EDUCATION

BTech - Computer Science & Artificial Intelligence	GITAM University, Visakhapatnam	8.4	2029
12th - Board of Intermediate Education (AP)	FIITJEE, Visakhapatnam	90.3%	2025
10th - Central Board of Secondary Education	Sri Prakash Vidyaniketan, Visakhapatnam	86.4%	2023

PROJECTS

- Onset of Disease Detection in Paddy Plants | Indian Statistical Institute, Kolkata**May 2026 – Jul 2026
- Developed an image-based deep learning project focused on detecting the onset of diseases in paddy plants using computer vision and CNN-based techniques..
 - Worked on data collection, analysis, model development, project discussions, and report preparation as part of the 10-week Data Science Summer Internship Programme.
 - Used Python, TensorFlow, Keras, Computer Vision and Streamlit during the project.

SKILLS

- Programming Languages:** Python, C/C++, HTML, CSS, MySQL, JavaScript
- Technologies:** Machine Learning, Deep Learning, Data Science, Computer Vision, NLP, NumPy, Pandas, Matplotlib, TensorFlow, Keras, Streamlit, Git/GitHub

ACHIEVEMENTS

- Completed the 10-Week Summer Internship Programme in Data Science at the Indian Statistical Institute, Kolkata (2026).

POSITIONS OF RESPONSIBILITY
